

Maternity clinic

What is the Maternity clinic?

The Maternity clinic is intended for babies born in Amstelland Hospital, who shortly after birth are checked by the paediatrician. The paediatrician decides during this brief control if you should return with your baby for a follow-up appointment at the Maternity clinic or the regular consultation by the paediatrician. Parents receive this form from the Maternity or children's ward on discharge from the hospital.

The appointment

Your baby will be weighed and measured by the physician's assistant. You are able to discuss your baby's feeding with her. It is also possible to ask questions. A visit to the Maternity clinic is only once.

Changing appointment

If you are unable to attend or would like to change your appointment, you are required to inform us at least 24 hours in advance, you can inform us of your change via www.ziekenhuisamstelland.nl/en or contact the Paediatrics Outpatient Clinic.

Please remember to register your baby first at the registration desk before the appointment. Please note that this can take approximately 30 minutes.

You are expected on _____ (date) at _____ (time) at the paediatrics clinic (B12)
